Teflon coated stainless steel interior components

Teflon coated with Marine Grade Finish

**For Exterior & Interior Use**

**Weather Resistant**

**Lifetime Mechanical Warranty**

The 3230 is only available in Marine Grade finish. The finish closely resembles the color of a Satin Chrome (26D) finish lock. We recommend the Marine Grade Finish for saltwater environments where the lock will sustain consistent exposure to the elements. It has a much longer lifetime than a standard finish and provides added strength against the corrosive elements of coastal/saltwater environments.

## ORDERING INFORMATION

Finish	Single Combination	Double Combination
Marine Grade	3230	3230DC
